

CLOTHING STRIKE SETTLEMENT ONLY TRUCE, IS BELIEF

Agreement Leaves Important
Questions to Be Settled
by Conference.

Sidney Hillman, President of the Amalgamated Clothing Workers, was ordered yesterday by Supreme Court Justice Tierney to submit to examination in advance of trial of the suit brought by Fruhauf Bros. & Co., of the Bandler faction of manufacturers, for \$250,000 damages and dissolution of the Amalgamated as an illegal body. Friday, June 10, was set as the date for examination.

Justice Tierney's order serves to indicate how incomplete is the peace in the men's clothing trade proclaimed Wednesday by Mr. Hillman and Max D. Steiner, of counsel for the Clothing Manufacturers' Association. As if to give further emphasis to the incompleteness of the peace, about the time Justice Tierney was issuing his order, William A. Bandler and Archibald E. Stevenson, of counsel for the Clothing Trade Association, was asking the Senate Committee on Education and Labor to investigate the entire New York clothing situation.

The actual agreement between the Amalgamated and the Clothing Manufacturers' Association, which includes in its membership the bulk of the trade, was signed late in the day.

Its text was withheld from publication; only general statements as to the contents of its twenty odd pages were given out. In these general statements it is declared that the actual wage scales and the increase in production which the manufacturers expect to get—the real questions in issue—are to be settled by committees yet to be appointed.

The length of the document, and its elaborate provisions for the maintenance of relations, are evidence of intent on both sides to avoid further trouble. Mere provisions to keep the peace do not always work, however. Otherwise the break last summer, resulting in the strike of Dec. 6, would not have developed.

Work under the new agreement will not begin in volume before next week. To-day and to-morrow union committees will meet to arrange for their shop crews to return. Full resumption depends, however, on the volume of orders that may be on hand.

JAPAN TO GIVE U. S. YAP-GUAM CABLE

Tokio Paper Says Mandate Will Be Kept and Yielding of Line Is Internationalization.

TOKIO, June 3 (Associated Press).—The Hoochi Shimbun says it has reason to believe Japan has proposed to give the United States the Yap-Guam cable, with the privilege of control of the line to the island of Yap. While Japan intends to keep the mandate, the newspaper says, she considers this to be virtual internationalization.

The Parliamentary Committee of the Kensei-Kai, or Opposition party, published a statement saying Foreign Minister Uchida, in receiving members of the committee, said Japan did not claim the exclusion of Manchuria and Mongolia from the Chinese consortium, but had insisted on assurance of protection to Japan's economic and general defense interests to which the powers had consented. Asked if Japan should insist to the last on the Yap mandate and what was the Government's policy, Viscount Uchida said: "Of course Japan will adhere to the mandate, but we are negotiating with Washington concerning the disposition of the Yap cables." He further said that the time for the evacuation of Siberia had not arrived.

DINNER TO JANE ADDAMS.

Women's League for Peace Entertains Her To-Night.

The Women's International League for Peace and Freedom will give a dinner to-night at Keene's Chop House to Miss Jane Addams and the delegates to the Third International Congress to be held at Vienna July 10. The organization was formed to support movements to further peace, internationalism and the freedom of women. It has branches all over the world.

Among the delegates from New York are Miss Viola Conklin, Miss Madeline Doty, Miss Elsa Guertler, Mrs. J. C. May, Miss Caroline Wood, Mrs. Jane Warbasse and Mrs. Henry Villard.

WHAT'S THE TIME IN LINCOLN, ME.?

Clocks Set Three Ways and Merchants Compromise on Half Hour.

BOSTON, June 3.—Lincoln, Me., claims to be the champion place for confusion over time. Several weeks ago it was voted to adopt daylight saving time and clocks were set.

At a special town meeting it was voted to adopt standard time for town clocks and they have been set back. The pulp mill, the largest industry of the place, the contractors on the new worsted mill, the principal hotel and some of the merchants will keep on daylight time.

Several merchants have set their clock half way between the two.

OFF TO N. Y. ON CRUTCHES.

Cross-Country Walker Stores False Leg in Massachusetts.

PITTSFIELD, Mass., June 3.—After "hiking" all the way from the Pacific to Pittsfield, William H. Armstrong parked his artificial leg in a storage warehouse here late yesterday and started for New York on crutches. He had intended to walk to New York on his false limb, but when he got over the hills from the West into the Berkshires he found that his artificial leg had chafed the stump of his real leg so badly that he could not continue. So he bought a pair of crutches, took off his leather, wood and metal leg—which is, by the way, something of a marvel in imitation—and stored it until he calls for it.

Armstrong, who formerly lived in Lee, has been travelling afoot for years. Though he expects to walk to New York, he added he will not scurry a lift from a motorist.

ONE-LEGGED WOMAN MISSING.

The police have been asked to search for Mrs. Louise Deltz, fifty, of No. 524 25th Street, Brooklyn, who has been missing since Wednesday. Mrs. Deltz lived with a niece, Mrs. Katherine McLoughlin, who says her aunt lost her right leg in an accident several years ago.

BERLIN LIFTS DAIRY RATION.

Butter, Eggs and Milk Freed First Time in Seven Years.

BERLIN, June 3.—Butter, eggs and milk are now being sold here without cards, for the first time in seven years. Bread and sugar alone remain rationed. Butter sells for 28 marks per pound, equivalent to about 60 cents. That price is two-thirds the daily wage of the average laborer. Prices are affected only slightly by the removal of restrictions, although in general, merchandise trade has been

stimulated by free trade, which is bringing in buyers in all lines.

The ban has been lifted on the alcoholic content of beer. Brewers are now permitted to make 35 per cent. of their product with 12 per cent. alcoholic strength, but must keep the remainder of their output down to a per cent.

No coal has entered Germany from Upper Silesia for a month. In consequence, the Coal Controller has issued orders to curtail street car, subway and railroad traffic. Factories east of Berlin are beginning to feel the pinch. Some of them have installed brown coal furnaces.

WINGS ON TOES IS PARIS FASHION

Women's Shoes to Be Ornamented With Plumes and Paradise Feathers.

PARIS, June 3.—The latest Paris style in feather shoes, announced for next fall. Evening shoes are to have toes tipped with little plumes and Paradise feathers are to be on the back. The modistes' journals are already speculating on where so many feathers will come from as will be needed if the new style "takes."
